

Prime Minister's Office

Crisis ID

123456

Sender

secretary

Crisis Summary

uccessfully trained computers to use artificial intelligence to learn from experience – and one day they could be smarter than their creators.

You might be familiar with chatbots in Facebook Messenger or as virtual sales assistants found on a number of online shops.

They've been relatively unsophisticated until now - repeating back a set script dependant on what you type into their chatboxes.
