

# Prime Minister's Office

## Crisis ID

4

## Sender

Poh Keong

## Crisis Summary

It follows warnings that scientists have successfully trained computers to use artificial intelligence to learn from experience – and one day they could be smarter than their creators.

You might be familiar with chatbots in Facebook Messenger or as virtual sales assistants found on a number of online shops.

They've been relatively unsophisticated until now - repeating back a set script dependant on what you type into their chatboxes.

## Action Summary

1234

## Signature

*prime minister*
